

2018 Toyota 4Runner SR5 Premium - Maintenance Audit Report

This report compares Toyota's recommended maintenance schedule with your 4Runner's documented service history. It highlights missing or overdue items, long-interval fluids, and inspection needs to maintain vehicle reliability and longevity.

Summary:

Your 4Runner has consistent oil changes and tire service history but lacks documentation for several critical long-term maintenance items. Most notably: differential, transfer case, brake fluid, coolant, spark plugs, and serpentine belt services are overdue or unrecorded.

Maintenance Item	Status	Recommended Interval	Notes
Engine Oil & Filter	■ Excellent	Every 5–10k mi	Consistently performed; continue every 5k.
Tire Rotation / Alignment	■ Good	Every 5k mi / as needed	Regular service and recent alignment.
Engine Air Filter	■■ Late	Every 30k mi	First replaced at 74k; due again soon.
Cabin Air Filter	■ OK	Every 30k mi	Replaced at 74k; due around 105k.
Spark Plugs	■ Overdue	100k mi	Not yet replaced; should be done ASAP.
Coolant / Antifreeze	■ Overdue	100k mi / 10 years	Likely original fluid; flush & replace.
Brake Fluid Flush	■ Overdue	Every 3 years / 30–45k mi	Likely original; flush recommended.
Transmission Fluid	■ Good	Inspect 60k / Flush 90k–100k	Flushed at 93,724 mi; next ~150k.
Differential Fluids	■ Overdue	Every 30–60k mi	No record; change front & rear.
Transfer Case Fluid	■ Overdue	Every 30–60k mi	Not documented; change ASAP.
Serpentine Belt	■■ Inspect	Inspect 60k / Replace ~90–100k	Likely original; inspect for cracks.
Brake Pads & Rotors	■■ Inspected	Inspect 5–10k mi	Regularly checked; replace if worn.
Undercarriage / Rustproofing	■ OK	Annual	Initial undercoating noted; continue checks.

Immediate Priorities:

- Replace spark plugs
- Flush & replace coolant
- Flush brake fluid
- Replace differential & transfer case fluids
- Inspect & replace serpentine belt if worn

Next Service Cycle (by ~130k mi):

- Replace air and cabin filters
- Inspect suspension, shocks, and bushings
- Transmission drain & fill by ~150k
- Recheck alignment and tire balance
